

TRAILER TENT/ FOLDING CAMPER MEASUREMENT GUIDE

This diagram shows a trailer unit with one sloping end, with an elbow, usually to accommodate the kitchen area at one end.

A = Depth required for trailer cover

B = Length along base of trailer body

C = Height from base of body to bottom of angle

D = length along top of trailer body

Please also state the total width of the trailer body and specific hook spacing if required

The above diagram shows the side view of a trailer tent with one sloping end. Please check the measurements from A - B
On your own trailer.
